5 Important Reasons Why You Should Have An Eye Exam

1 Many serious, sight-threatening eye diseases like diabetes, high blood pressure, glaucoma, cataracts, retinal and corneal disorders do not have early warning signs and can only be detected during an eye exam.

2 Headaches and eye strain could be symptoms of vision problems and can often be corrected by professional vision care.

3 For young people, good eyesight is vital for learning. An eye examination will detect any problems in sight which may be affecting school performance.

4 Everyday you depend upon your vision...to earn a living and enjoy life. Your vision is your most valuable asset, protect it with a yearly eye exam.

5 Failing eyesight is often taken for granted as people get older. However, by having an eye examination and remedying problems in sight, older people can improve their quality of life significantly.
